Art Unit: 3632

This is the second office action for serial number 09/676,362, entitled Stable Cell Platform, in response to Amendment A filed on October 7, 2002.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7, 17-19, and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Hussman 2,064, 751. Hussman (figures 1-3, and 8) discloses a lower mainframe (30); a upper mainframe (28 and 20) comprising a rigidifying plate (28) with aperture (near 27), a main base plate (20) with a plurality of recesses (23); a dampener system (near 34 between 46) comprising a plurality of axially extending support members (see figure 3, and 106); and a fastener structure (84). The applicant has not positively claimed the cell therefore claims 4, 5, and 6, are inherently met since the platform is capable of supporting various cells.

Allowable Subject Matter

Claims 11-16 are allowed.

Art Unit: 3632

Claims 8-10 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed October 7, 2002 have been fully considered but they are not persuasive.

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., semiconductor processing cells) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 3632

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
